SUMMARY

Third year computer science student specializing in cyber security with front end development. Experienced in building advance cyber security projects and high end user friendly web applications.

EDUCATION

GRAPHIC ERA UNIVERSITY bachelor of computer science and engineering - 3rd year cgpa 7.9/10 WOODROW SCHOOL BAREILLY,UP Intermediate - 74%

CERTIFICATIONS

- Google Cybersecurity Professional Certificate (COURSERA) 2025-present
- Introduction to Front-End Development by META (COURSERA) 2025
- AWS certifications for basic cloud foundations -2024

PROJECTS

Intrusion detection system

 Built a modular Intrusion Detection System combining real-time packet analysis, anomaly detection, file integrity monitoring, and email threat analysis with a simple Streamlit dashboard.

Symptom Analyzer – Health Risk Prediction App

 Developed an Intrusion Detection System (IDS) that monitors network traffic in real time using Scapy, detects known signatures and anomalies via Isolation Forest, and logs actionable alerts. Added a File Integrity Monitor (SHA-256 baseline/compare) and basic email threat analysis (attachments/URLs) with a Streamlit dashboard for operations. Designed for Windows with Npcap and modular Python components for extensibility.

Personal portfolio website

Developed a responsive and visually engaging personal portfolio website using React and TypeScript. The site showcases
professional projects, an about section, and contact information, featuring custom components and modern CSS for a
polished user experience. Implemented modular design for easy scalability and maintainability, and optimized for
performance and accessibility.

SKILLS

- Languages: JAVA, C++, PYTHON, HTML, CSS
- · Frameworks: React, Tailwind CSS
- Others: data structures and algorithms, cyber security tools like webshark and netmap

POSITIONS AND RESPONSIBILITIES

· Core member- Organising committee (GEU)
