SUMMARY

Third year computer science student specializing in cyber security with front end development. Experienced in building advance cyber security projects and high end user friendly web applications.

EDUCATION

GRAPHIC ERA UNIVERSITY

Bachelor of Computer Science and Engineering – 3rd Year | CGPA: 8.03/10

WOODROW SCHOOL BAREILLY, UP

Intermediate – 74%(CBSE)

Class 10th – 93%(CBSE)

CERTIFICATIONS

- Google Cybersecurity Professional Certificate (COURSERA)
- Introduction to Front-End Development by META (COURSERA)
- AWS Certifications for Basic Cloud Foundations

PROJECTS

Intrusion Detection System ([github](#))

- Built a modular Intrusion Detection System combining real-time packet analysis, anomaly detection, file integrity monitoring, and email threat analysis with a simple Streamlit dashboard. Monitors network traffic in real time using Scapy, detects known signatures and anomalies via Isolation Forest, and logs actionable alerts. Added a File Integrity Monitor (SHA-256 baseline/compare) and basic email threat analysis (attachments/URLs) with a Streamlit dashboard for operations. Designed for Windows with Npcap and modular Python components for extensibility.

Zero Trust Enterprise Security Dashboard ([github](#))

- Developed a Zero Trust Enterprise Security Dashboard to manage secure user access, role-based monitoring, and protected file handling within an organization.
- Built separate dashboards for Employees, Managers, and Admins with authentication, activity tracking, secure file sharing, and file integrity verification features using React and Flask.

Personal Portfolio Website([github](#))

- Developed a responsive and visually engaging personal portfolio website using React and TypeScript. The site showcases professional projects, an about section, and contact information, featuring custom components and modern CSS for a polished user experience. Implemented modular design for easy scalability and maintainability, and optimized for performance and accessibility <https://portfolio-delta-seven-16.vercel.app/>.

SKILLS

Languages: JAVA , PYTHON, HTML, CSS

Frameworks: React, Tailwind CSS

Others:Cyber Security tools like Wireshark and Netmap

POSITIONS AND RESPONSIBILITIES

- Head– Organising Committee (GEU) (managing over 200 students) 2025 - present
